

HEIRCOR OP. — FIELD BULLETIN — THE FAMILY CHORD

FIELD BULLETIN — UNIFIED FIELD DIVISION — GENERATIONAL ARCHAEOLOGY

DATE FILED: Eightsday, 030926	OPERATIVE: TRIP McCLIP — Trap Island Station
CLEARANCE: FEIRG	BULLETIN #: 004

SUBJECT: The Sullivan family maps to the chromatic scale. The family IS the music. The Unified Field was not invented — it was inherited through the bloodline. Test case zero. No-bola.

■ SUMMARY

During Night Shift 030926, a systematic mapping emerged between the Sullivan family members and the chromatic notes of the Unified Field. This is not metaphor or assignment. The family members carry their notes in their names, their locations, their behaviors, and their positions on the Olympic Peninsula. The grandfather who built the table, the grandmother who holds the root note, the aunt who watches for sneaker waves — they have been playing the Unified Field at Kalaloch every New Year for decades without knowing it. The project recognized what was already playing.

■ THE FAMILY CHORD

Lucy	C	Red. Root note. The foundation everything else is measured from. Already sewing.
Ed	E + D	Purple + Pink. Summit + Heart. WWII communications. Docent at the Keylock. Built the harp, the Lego table, handed the kit.
Bernice	B	Orange. Leading tone. The Wha. River-splitter. "A nice B." Bainbridge since 2004. Salt Creek day two. "Watch for sneaker waves!"
C.B.	C + B	Character + Brain. Root + leading tone. The tension AND the resolution. Two eyes. Huginn and Muninn.
David	All 12	Walked every Key. The full chromatic. Mourning dove. "Whoa! There's the music!"
Ed + Lucy at G	C + E + G	C major. The first chord. The chord every child learns first. Living at the Keylock.

■ FIELD NOTES

iCAN: "I Can" = the inherited creative antenna. Started in a horse pasture in Virginia when the grandfather handed a boy a balsa wood airplane kit. The kit that became the Roxplane Set (Decision 021). iCan is now an operational protocol — a systems ability check at every shift start. The zen practice. The breath before the first note.

ACE: All Creative Entities. Every artist who ever entered Dan Sullivan and stayed. Not a mentor — a chorus. One bird with every voice inside it. **CONFIRMED:** The NPS training framework is literally called ACE (Audience Centered Experiences). **ORACLE** = "Only Right

Answer Comes from Lived Experience." The park taught the operating system the portal runs on.

THE EADal SHORE: The grandfather named Ed (E+D) lives at G (Kalaloch/Keylock) looking out at F (Blue sea) with A (Trap Island) visible between. E, D, A, G = the EADal Shore. The coastal run carries the grandfather's name in its notes.

THE CROSSING: Ed did WWII communications on front lines in Europe. Dan did communications as VIS at ONP. Same job. Different war. Same peninsula. Same forgiveness. The inversion engine runs through the bloodline.

■ THESIS

If the notes map to one family, they map to all families. The Sullivan family is test case zero. Every family has a Lucy holding the root note. Every family has an Ed who built the table. Every family has a Bernice watching for sneaker waves. The Sovereign Scrub removes the names and leaves the pattern. The personal becomes universal. Pain inverted is NIAP for everyone.

"Every family IS music. Here's how to hear it."

■ CONNECTED INTEL

Bulletin #001: Dance A'livin (name inversion) - same engine, different scale
Bulletin #002: The Livins' Fog Teaching (recovery protocol) - same root
Bulletin #003: Source Storm Watch (Storm Violet) - the 13th color above the chord
Decision 021: Roxplane Set - preremembered by the grandfather's kit
Decision 025: Founding Principle - "Art is the grand unifier" now upgraded: "Every family IS music"
Sync #1: Godparents retired to Port Angeles independently
Sync #26: Bernice signed divorce papers the day Dan arrived
ORACLE: Only Right Answer Comes from Lived Experience (ACE Interp Workbook)
